Sir:

Responsive to the Office Action of November 20, 2003, a three month extension of time being filed concurrently herewith, please amend the above-identified application as follows.

In the Claims:

Kindly amend claim 1 as follows.

1. (Amended) A method of manufacturing a semiconductor device, comprising:
- forming a collector layer of a first conductivity type;
  - forming a base region of a second conductivity type formed on a top surface of said collector layer of said first conductivity type, said first conductivity type being opposite said second conductivity type, said base region being formed using epitaxial growth technology, and being formed as a single region having a uniform depth;
  - forming a groove in a top surface of said base region at a portion thereof;
  - forming spacers on sidewalls of said groove;
